### **Current Situation in Afghanistan**

Girls over the age of 10 are unable to access education. Most women cannot work, women cannot go out without a male accompanying her. Young people able to attend education in Afghanistan are being exposed to extremist curriculum.

Taliban are involved in 'gender apartheid' with no representation of women in Cabinet. Cabinet consists mostly of Pashtun.

Hazaras (in Uruzgan, Bamyan, Ghazni, Behsud), Uzbeks, Tajiks (in the northern parts of Afghanistan) are being persecuted and killed. Afghan people who were serving with the Afghan security police and the army are in constant danger and subject to extrajudicial killings.

### **Recommendation**

**RAR campaign to promote the human rights abuse to women and girls by the Taliban and to urge the Australian Government to publicly condemn this abuse.**

**RAR campaign to increase the humanitarian intake of vulnerable Afghan people particularly woman and girls and minority groups.**
